

TO SAVE WATERMAN.

Mrs. Doran Testifies for the Slayer of Her Husband.

The Theatrical Manager's Second Trial for Killing Him.

Witnesses Repeat the Story of the Shooting for Demanding His Wife.

Theatrical Manager Asa R. Waterman's trial for the alleged wilful murder of Peter Doran was continued this morning in the Court of Oyer and Terminer, Brooklyn.

The court-room was crowded, many women being among the spectators.

Waterman was brought into court very early. He chatted pleasantly with the court officers, but as soon as the case proceeded he resumed his seat alongside his lawyer, Jere A. Werberg.

Waterman is under the medium size, of pale complexion, and wears a long dark mustache. He is very nervous, and starts whenever a word is spoken suddenly.

The story of the crime for which Waterman is on trial is familiar to readers of THE EVENING WORLD. He was tried last November, but the jury after remaining out for seventeen hours was unable to agree.

Waterman was connected with the Lee Avenue Academy, and had the privilege of other houses, and it is not extraordinary that Mrs. Doran had been introduced to the Lee Avenue Academy.

A neighborly dispute arose between Waterman and Mrs. Doran. Waterman called Mrs. Doran a "bitch" and she called him a "bitch" in return.

The woman for whom Peter Doran had left his wife is a pretty blonde of about twenty-four. She was dressed in black silk and wore a white black lace hat. She now lives at 538 Wythe avenue.

She described the life she had led with her husband. He beat her, she said, and she was compelled to go away on three occasions.

She was introduced to Waterman by actor Harry Tresser and afterwards saw him at several balls and parties.

"Mrs. Doran," began Mr. Werberg, "please tell us what your domestic relations were."

"I had you any conversation with Mr. Waterman before you moved to South Fifth street?"

"Yes, Mr. Waterman said he would take me to the theatre for my first night out. His mother was coming here to be treated for her health, and he said he would like me to go."

"Now, Mrs. Doran, what was your physical condition when you left your husband and came to New York?"

"I was very poor, and it grew worse after I got there."

"Did Mr. Waterman live in South Fifth street?"

"No, sir."

"Did he ever call there?"

"No, sir."

"Never stay during the night?"

"No, sir."

"You had conversations with Waterman about your husband?"

"What did you tell him?"

"I told him that my husband had said that I was a bitch, and that he was a bitch in return."

"What did you tell him?"

"I told him that my husband had said that I was a bitch, and that he was a bitch in return."

STOCK REPORTS.

Business and a Tendency to Lower Prices Were To-Day's Features.

Fears of More Gold Shipments Make a Bear Market.

The Market Closed Firmer, with Slight Advances—The Quotations.

Stock speculation was dull again this morning. The tendency of prices was downward, owing to the fear of additional gold shipments.

There is talk of shipping from three to five millions of gold this week, and this makes the street feel bearish.

At the opening, prices declined $\frac{1}{4}$ to $\frac{1}{2}$ per cent., but soon made a fractional recovery.

Towards midday weakness again set in, and the lowest figures of the morning were reached near 1 o'clock.

North American, which was so prominent in the market late yesterday, was quiet and untraded today.

The steamship market was active, with Europe this morning took out \$400,000 in gold.

The Proctor & Gamble company has declared a quarterly dividend of 2 per cent. on the preferred, payable July 15.

It was supplied at the stock exchange this afternoon. Reading and Chicago were active, and the market was generally firm.

The fact that no engagements of gold were announced for tomorrow's European steamships induced the small bears to cover.

Milwaukee, La. and St. Louis were prominent in the market, and the last previously reported sale was at 70.
